SUMMARY

Passionate full-stack developer with a strong foundation in front-end and back-end technologies, specializing in responsive web design and dynamic applications, and looking to leverage my technical skills to build scalable, user-centric solutions and drive business growth and digital innovation.

WORK EXPERIENCE

WEB DESIGNER, *Adaan Digital Solutions, New Delhi* | Aug 2021 to Jul 2022

- Designed and delivered **180+ responsive websites** for international clients using the Duda platform, tailored to unique branding and business requirements.
- Ensured high performance, accessibility, and cross-device compatibility while maintaining a balance of functionality and aesthetic appeal **by 15%**.
- Recognized as **Best Designer of the Month for 3 consecutive months** for creativity, attention to detail, and consistent delivery beyond client expectations.

VOLUNTEER FULL STACK WEB DESIGNER & DEVELOPER, *PhDigiTech, Remote* | Jul 2022 to Jul 2024

- Collaborated directly with **30+ small business** organisations from **India and abroad** to gather user requirements, understand branding objectives, and deliver end-to-end website solutions.
- Developed **50+ responsive websites** using HTML, CSS, Bootstrap, JavaScript, PHP, and MySQL; implemented authentication systems, payment gateways, and automated emails to deliver secure, scalable, and high-performance platforms.
- Implemented backend functionality in **50% of the projects** using PHP and MySQL, including user registration/login systems, contact/email automation, and payment gateway integration.
- Delivered visually consistent, brand-aligned UI designs & conducted testing to meet usability, accessibility, & SEO standards to **improve SEO score by 80%** for most of the clients.
- Acted as the point of contact for all design & tech queries, offering post-deployment support based on user feedback.

PROJECT MANAGEMENT INTERN, *IQSec Labs (Remote)* | May 2025 to Jul 2025

- Led 5+ AI/ML and Cybersecurity interns** on strategic projects for defense use cases, applying Software Engineering methods, Agile (Scrum), and technical documentation to deliver secure, scalable solutions.
